

SAVANTS ON HOT DINOSAUR TRAIL

Eastern Museums Join Hands for Arizona Expedition

Reptiles' Footprints Sought and Early Man's Relics

Cave Dwellings Offer Hope of New Discoveries

PHILADELPHIA, Nov. 3 (AP)—The University of Pennsylvania Museum of Natural History in New York will join forces in salvaging important remains of early man and extinct animals that have been discovered recently in the American Museum of Natural History, the museum announced today. Dr. J. Alden Mason, curator of the American section at the University Museum, said the Penn museum will also join forces with the American Museum of Natural History in salvaging remains of the project.

ON TRAIL OF REPTILES

Dr. Mason, who has been making important archeological investigations

joined by Dr. Brown in a few days and they will proceed to a locality about 100 miles north of Flagstaff, Ariz., where numerous dinosaur footprints have been uncovered and where there is a series of unexplored cave dwellings believed to contain relics of the earliest inhabitants of this continent.

It was pointed out by Horace F. Jayne, director of the University of Arizona, that the

city Museum, that by combining the archaeological and paleontological work through a joint expedition the important illustrative matter could be attained at a big saving.

FOOTPRINTS SOUGHT

Dr. Brown will arrange to remove large sections of the sandstone in which the gigantic footprints are impressed so that they may be published in the *Major*

The cave dwellings are of a much later date, but probably were used by races which lived in America before the Christian era. Because of their inaccessibility Dr. Mac-

PRODIGY MAKES DEBUT IN EAST

Extra Rachlin, Angeleno Lad, Plays at Carnegie Hall

Concert Follows Successes in Appearances Abroad

Early Training Given Here by His Pianiste-Mother

NEW YORK, Nov. 3. (AP)—Extra Rachlin, a lank, dark-haired 12-year-old lad, who plays football for fun and piano for a career, made his American musical debut tonight at Carnegie Hall.

For the last three years he has been studying in Berlin with Prof. Mayer-Mahr, winning ice-skating contests and captaining hockey games on the side. And for the last two weeks, since his return to America, he practiced "all hours" for tonight's concert and assembly in his neighborhood "football" game between times.

Extra Rachlin has been brought up in the shadow of a grand piano. From the time he could talk he scrambled about under the mahogany one in the Los Angeles home where he was born, while his mother, a concert pianist, practiced. His pleading to "play me this" or "that" convinced her he was to be a musician and she began to teach him herself.

EARLY PROMISE SHOWN

Musicians who heard him play at the age of 5 predicted a career for him. So Mother Rachlin—a diminutive brown-eyed woman—look him to Henry Rothwell, then conductor of the Los Angeles Symphony Orchestra, for his verdict.

Rothwell was enthusiastic, so enthusiastic he promised to finance him when the time came for study abroad. Extra, at the age of 5, was ready to go; his family had sold their home and prepared to accompany him, when Rothwell died.

Thereupon the youngster-pianist's father, a cloak designer, gave up his own Berlin plans and remained at home to earn the wherewithal for his son's study in Germany.

ACCLAIM WON ABROAD

Last year, after two and a half years of study under Mayer-Mahr, Extra appeared in concerts in Munich and Berlin. The audience shouted their approval with "bravo, little Paderewski!" And the critics gave voice to enthusiastic comment. But audiences and critics are the least of Extra's worries. He isn't nervous before one and he pays scant attention to the comment of the other.

If his mother says he plays satisfactorily that's all he wants to know.

DAILY PRACTICE

His mother sees to it that he gets in those hours of practice every day—four or five of them. He is at the piano every morning by 8:30 o'clock and there he stays until 12. A half-hour rest and he's back at scales and arpeggios until 2. Then he dives into the midst of a hot German dinner, and the three hours are his for football, basketball and ice skating when the season is on.

Last winter he dressed up in a Pagliacci suit and sailed into an ice skating contest at the nearest Berlin rink. He was skating around

YOUNG MUSICIAN WINS APPLAUSE

Extra Rachlin

there and just happened to win first prize.

This winter, between sessions of Beethoven's List, he's going to concentrate on football. He sneaks a ride on a bicycle whenever he can get it, although he doesn't own one.

MODERATES FAVORABLE TO TARDIEU

New French Cabinet to Back Young Plan, Says Conservative Press

PARIS, Nov. 3. (AP)—The moderate press today adopted a friendly tone toward Andre Tardieu and his newly formed Cabinet, predicting that with Aristide Briand in the Foreign Office, the government would adopt a policy of European conciliation based on the Locarno pact and the Young reparations plan.

The papers also predicted straightforward concentration on preparation for the London Naval Conference. Leading articles emphasized it was imperative to abandon the political confusion which has reigned in France since resignation of the Briand Cabinet. The confusion, tended to belittle the regime in the eyes of Frenchmen and foreign countries, it was said. The extreme press, on the contrary, was bitter. One Socialist organ called the new Cabinet "ridiculous and reactionary," insisting that its formation is the precursor of a violent internal political struggle.

The organ of the Communists, whose activities M. Tardieu has combatted strenuously, today termed him "shaky," declaring his Premiership represents a temporary victory for capitalism and the special interests.

Red Tape Cut by Mexico for Border Visitors

MEXICO CITY, Nov. 3. (AP)—Americans who desire to visit in Mexico for less than forty-eight hours will be required hereafter only to give their name and address to Mexican border authorities.

The acting Secretary of the Interior, General Canales, in order to remove difficulties in connection with visits by Americans to Mexican frontier towns, announced today, "shaky," declaring his Premiership represents a temporary victory for capitalism and the special interests.

It was not indicated whether this ruling will have any effect on the Federal order of last July requiring foreigners who work in Mexico to live there.

Union Blamed for Explosions in Two Theaters

ST. LOUIS, Nov. 3. (AP)—Two neighborhood motion-picture theaters were damaged by explosions which occurred thirty minutes apart early today. The theater owners attributed both blasts to the first outbreak of violence in a dispute with union musicians.

No one was injured but the explosions shook the neighborhoods and damaged the theater buildings, motion-picture machines and Vitaphone apparatus to the extent of \$11,000.

Union musicians in many theaters have been out on strike for about six weeks in a dispute over a contract concerning the number of musicians to be employed.

Unattended Baby Mauled by Five Dogs

SPOKANE, Nov. 3. (AP)—Set upon by five bulldogs while he was left lying on a sofa, Joseph Anderson, 5 months of age, was terribly bitten and mauled about the face and head this afternoon.

Mrs. R. H. Barney, with whom the child had been left to board, had brought the baby to the William Schults place on a visit. While she stepped outside the house the infant was placed on the couch. In less than two minutes the child's agonizing screams brought Mrs. Barney hurrying into the house and the dogs were beaten off.

JOHN E. MADDEN, HORSEMAN, DIES

Heart Disease Brings End to Noted Racer

Six Winners of Kentucky Derby Bred by Him

Romantic Career Led Up to His Great Success

NEW YORK, Nov. 3. (AP)—John E. Madden, Kentucky horse breeder and breeder of six Kentucky Derby winners, died at the Pennsylvania Hotel today after an illness of several days.

Mr. Madden, who was 73 years of age, had been confined to his suite at the hotel for nearly two months, suffering from heart disease. A week ago his condition was reported much improved, but a relapse caused his death today.

The death of Madden was the third among the great leaders of the turf within the past month. Mrs. Cassidy and Samuel C. Hildreth, turfmen, died within that period.

Born in Bethlehem, Pa., in 1856, Madden was said never to have known poor health until his fatal illness. In his youth he was noted as a foot racer and also was a widely known figure in the prize ring. With his winnings as a foot racer and his endeavors in the prize ring, he bought an old trotter named Robert McGregor. With this horse Madden won \$25,000 and on that foundation he built a stable of race horses.

With a vision of greater opportunities in the running game and with comparatively small capital, Madden bought Hamburg Place, a 200-acre estate in Kentucky. Here he bred such great horses as Incense, Elmhurst, The Finn, Flora Pina, Fayette, Minute Man, Vandal, White Hawk, Sir Martin and Old Rosebud.

For the last ten years Madden had lived in New York during the northern racing season, living at the Hotel Pennsylvania. He retired two years ago, when he was regarded as a millionaire and since that time he is reported to have made at least \$2,000,000 in Wall Street investments.

KENTUCKY ESTATE GREAT SHOW PLACE

LOUISVILLE (Ky.), Nov. 3. (AP)—John E. Madden who died in New York today, was one of the outstanding breeders in America. Six Kentucky Derby winners were bred by Mr. Madden. These were Flying Ebony, 1925; Zev, 1923; Paul Jones, 1920; Sir Barton, 1919; Old Rosebud, 1914, and Plaudit, 1888.

Mr. Madden was known in Kentucky as the "master of Hamburg Place," his estate where he bred most of his racers. He wintered his yearlings at Churchill Downs and took them East in the spring. His Hamburg Place is one of the show places of Kentucky, and contains the horse cemetery which has caused national comment.

SEEN FLYERS BUMPED

BREMEN, Nov. 3. (AP)—Pilots of the small planes which are catapulted from the S.S. Bremen, complained that the sudden throw gives a violent bump in the back which no padding contrivance can overcome. The plane goes from a standstill to fifty miles an hour in the space of a few seconds.

"MERCY KILLER" GOES TO TRIAL

Englishman to Answer for Mother's Slaying

Woman Dying in Agony Shot to End Sufferings

Humane Right to Mute Out Death Son's Defense

DRAGUIGNAN (France) Nov. 3. (AP)—The trial of 30-year-old Richard Corbett, an Englishman who shot and killed his invalid mother at Hyeres on May 9, will open in this mountain town tomorrow. His defense will be that he exercised a humane right to kill.

Corbett's father was an English banker who settled on the Riviera nearly forty years ago when he married a French girl. Ten years ago he died. Three years ago Mrs. Corbett began to suffer from what physicians later diagnosed as cancer. Her son acted as her nurse, scarcely ever leaving her alone in the small villa they occupied on the outskirts of the city.

KILLED IN MERCY

In April Mrs. Corbett's suffering became so great that even the opiates constantly administered by the doctors did not relieve the pain. Day after day her son sat by the bedside watching her suffering and pleading with the doctors to do something to ease her. Early in May he was told there was no hope. On May 9 he cleaned a revolver, loaded it, walked into his mother's bedroom, knelt her and killed her with one shot. He then shot himself.

Neighbors heard the shots and arrived to find Mrs. Corbett dead and her son unconscious. When he was able to speak at the hospital his first question was "My mother is dead?" The police told him he had killed his mother.

"Thank God for that," Corbett is reported to have said. "Now she suffers no longer. I don't care what you do to me."

MAINTAINS RIGHT

Corbett will contend that he had a right to kill, though the state will contend that no disease is incurable. But exactly what the defense intends doing remains a well-kept secret. Ordinarily a sentimental plea would free a person charged in a similar case.

Within the past four years in France seven persons have killed seven invalids in order to put them out of their suffering and the state has failed to convict. Now the Public Prosecutor is out to get a conviction and create a precedent. Corbett has refused the services of a lawyer and will plead his own case. He does not intend to ask for clemency.

Nation Sound, Klein Repeats

WASHINGTON, Nov. 3. (AP)—Reiteration that "commercially and financially the United States is sound" was voiced tonight by Assistant Secretary Klein of the Commerce Department.

Speaking over the national network of the Columbia Broadcasting Company for the second time since the slump of the stock market began, he said additional reassurance had come since his Tuesday address.

TIMES WANT ADS

A Declaration to the People of Southern California

Every great career has had a modest beginning. But no lasting career has ever been built on anything except on a genuine, sincere, compelling desire to serve the public. To become a great man has never been the original ambition or goal of any truly great man. Only service, actual service to his community and to his fellow-men has imposed upon him a cloak of influence and dominance.

PRINCE RADIO CO. owes the pre-eminent position which it holds today in the radio retailing field to the absolute and unalterable determination of its founder to give the greatest value to every consumer for his dollar and to work on the narrowest margin of profit humanly possible. The carrying out of this resolution has been facilitated by locating our stores out of the high rent district and manning each and every department of our organization with the most efficient and charming type of personnel obtainable.

It may be surprising, but it is not odd at all that a few radio concerns having in mind nothing but their profits and pocket book have regarded our unchangeable policy and continuous growth an "alarming danger" to their business and they are stopping at no mean and unethical means to cut down our "dangerous competition." But I want to personally and solemnly assure the good people of Southern California that I will never lose my courage or yield in any fight in which so appealing principles are involved as the interests of the public and true Americanism.

HAIG M. PRINCE.

A Penny a Day Insures \$100 a Month Income

Thousands Are Protecting Themselves Against Worry—Plan Sent Free for Your Inspection.

The Postal Life and Casualty Insurance Co., 1741 Market St., Kansas City, Mo., is offering a new savings policy that pays up to \$100 a month for 25 months in case of death, and costs less than 1¢ a day—13¢ a year.

Over 25,000 men, women and children over 10 years of age already have this protection. No examination whatever is required—just do not even have to pay a cent until you have thoroughly examined the policy.

RUPTURE IS NOT A TEAR

NO BREAK TO HEAL

Rupture is not a tear, but purely a muscular weakness in the diaphragm wall. It is usually caused by straining, but it is not dangerous. It is a condition that can be cured by the use of the "Piape" device, which is a small, portable, and effective treatment.

STUART'S ADHESIVE PLAPAO-PAD is a unique device—helps mechanics in applying—made in California—designed to keep the muscles—tendons—ligaments—continuously applied to the affected parts, and to minimize danger of tearing and painful friction. The adhesive is soft as velvet and clings to the body without straps, buckles or springs. It is applied—comfortable—inexpensive. Awarded Gold Medal, Rome, Grand Prize, Honorable Mention, Panama Pacific Exposition, San Francisco, etc. For almost a quarter century stacks of awards—testimonials from many different countries—testify to the effectiveness of this device. The epidemic absorption of Piape's "mechanical-chemical therapy" is a natural process of recovery, after which no further use for a time.

Stop waiting your time and money on so-called devices. Learn how to close the rupture opening as nature intended, so rupture can't come down. Send no money. Just mail the Free Test coupon now. For your own good—write today—tomorrow may be too late.

FREE TEST COUPON

"Piape" Laboratories, Inc., 288, Ivar St., St. Louis, Mo. Send me a Free 10 day test coupon of the remedial factor Piape and I will receive a free copy of the book on Rupture; no charge for this now or later.

OLD AND NEW MIXED IN PERU

Trade Tour Party Meeting Many Contrasts

Members Learn They Are Now North Americans

University 372 Years of Age Paid Visit

BY WOODWORTH CLARK

(This is the second of a series of letters describing the South American tour, the first being published in the Times of the 28th.)

LIMA (Peru) Oct. 14. (By air mail) This has been our first day in South America—and we have wandered through the cluttered halls of a great university that has not missed a session for 372 years; we have seen relics of the Incas—and even the pre-Inca-period; we have seen the first airplane that crossed the Andes; we have seen the voting device in the Peruvian Senate chamber, whereby each Senator casts his vote on pending measures by pressing a button at his desk, thus recording electrically his "yes" or "no" on a tally board in front of the Senate's secretary.

Aboard the good ship City of Los Angeles, which arrived at Callao—eight miles from Lima—at daybreak this morning, there are many world travelers who, for ten days, have entertained us aboard ship with tales of their journeys to Bombay or Shanghai, to Delhi or Shanghai.

For a day or two before arriving at Callao, we compared forecasts of just what our impressions would be after we had glimpsed Peru. We anticipated the old, but not the startling contrasts of the old with the new.

NEW GIVES SURPRISE

We were prepared to view the ruins of some ancient building that had been founded in Pizarro's day, and, of course, some up-to-date schools, too, but we did not expect to find a modern university—Universidad de San Marcos—that had been functioning for a hundred years.

And as far as the electrical voting device is concerned, my fellow-senator, Will Rogers, might utilize the suggestion in his campaign to reduce the high cost of conversation in our own halls of Congress.

Another thing we learned today—my friends—as they say it down here: we are no longer just "Americans." We are "North Americans."

If you please, we in the United States have rather appropriated that designation "Americans"—and we get by with it in great shape in Europe, Asia, Africa, North America and the Fiji Islands, perhaps—but not in South America.

Columbus, and the happy discovery of this western hemisphere, are as gloriously commemorated here as they are at Los Angeles, Cal., or Davenport, Iowa.

PRIDE IN AMERICANISM

This seems to be well worth remembering: the pride in being "American" extends from Pizarro to Hudson's Bay. It is purely psychological, but it appears to be an excellent foundation upon which we may build a better understanding and a lasting friendship. This is no new thought, of course. It is basic to the Monroe Doctrine and the Pan-American Union—but the average North American business man has forgotten it—if it ever was called to his attention.

The old Incas would turn over in their silver-lined tombs if they knew how this letter is to proceed from Lima to the United States. Through air-mail service has become available to Peruvians within the past three weeks. A letter mailed at Lima Wednesday morning will be delivered at the Miami (Fla.) terminal of the Pan-American Airways at 10 a.m. the following Sunday—six days. The steamship schedule requires three weeks.

In the meantime Pizarro's mummy lies in state in the cathedral which he built in 1532—and the students at the Universidad de San Marcos continue the routine that began in 1581.

We North Americans are having a great time in South America.

Mexico Imports in August Led by Automobiles

MEXICO CITY, Nov. 3. (Exclusive)—Mexico imported 1448 cars, including ninety-three separate commodities, from the United States during August and exported 850 cars of thirty-one commodities over the National Railways of Mexico, officials of the railroad have announced.

The leading imported commodities were: Automobiles, 180 cars; lumber, 135 cars; machinery, 72 cars; merchandise, 114 cars; pigs, 91 cars; posts, 60 cars; wheat, 104 cars.

The leading exported commodities were: Bananas, 323 cars; lead ore, 271 cars; ore, 93 cars, and zinc ore, 118 cars.

VOWS NOT MENTIONED IN HUMANIST WEDDING

NEW YORK, Nov. 3. (Exclusive) A marriage ceremony in which there was no mention of deity, no giving of the bride, and no promises of honor and obedience, was performed today in Brooklyn when Wyatt Schoonmaker and Miss Chloa Andreanna Poliakova took each other as life companions in the first Humanist wedding.

Phrases traditionally part of marriage rites were discarded as Schoonmaker and his bride affirmed in sentences they themselves had composed that they intended to love each other and live together as human companions in quest of happiness. After each had made affirmations in a single sentence, Charles Francis Potter, founder of the First Humanist Society of New York, pronounced them husband and wife.

NOVEMBER Selling Events

Over a half million dollars worth of furniture alone enters this event....at savings of 10% to 50%! Seize these values now—take advantage of Barker Bros.' liberal credit privilege, and budget the cost in monthly payments! THE CHIRO-VOX

(Chiropractor's Voice)

YOU ARE INVITED to come to my office for a CHIRO-VOX Spinal Examination. This Scientific Instrument is the latest for determining the exact location of Nerves under Pressure.

WHAT IT CAN DO

The CHIRO-VOX will tell you always and positively exactly where the pressure is that is causing you trouble—no matter what the pathology is or what the name might imply.

It will do this without you telling me one single word. You may be dumb, lame or speak a foreign language, or a child that cannot talk or tell its troubles—it is all the same to the CHIRO-VOX. When the proper adjustment of your spine is made, it will tell you whether or not the pressure has been relieved.

The CHIRO-VOX absolutely proves that there may be an apparent displacement without an impingement and that there may be a severe pressure that is doing untold harm without any apparent displacement even when such displacement cannot be detected either with the X-RAY or by local palpation.

Therefore, you will know whether or not your case is a Chiropractic Case—something you have never known positively before.

YOU

—Can very frequently feel the changes in the affected part immediately after adjustment is given.
—Does not require lengthy and, owing to constant re-check with this instrument, in a short time are well.
—BEING IS BELIEVING. Bring your friends and see this instrument. Watch it register exact nerve pressure.
—COME IN AND SEE FOR YOURSELF. This offer open for 10 days.

FREE Consultation and Spinal Examination by appointment.

HOOVER BLAZES PATH OF PARLEY

Conversations With Japanese
Delegation Stated

Preconference Agreement
Would Ease Task

Stimson Arranges Meetings
of Delegates at Capital

WASHINGTON, Nov. 3. (AP)—Secretary Stimson, who will head the American delegation at the five-power naval conference meeting in London in January, has begun active preparations for the conference. He will have with the members of the Japanese delegation when they arrive in Washington on their way to the British capital.

Two of the most important questions to be taken up at the conference—the ratio between the Japanese navy and the American and British navies and the policy of naval reduction—are expected to be discussed at the meetings between the members of the two missions in Washington.

CHANCE TO GET TOGETHER

The American Secretary of State and the advisers of the State and Navy departments who are assisting him in laying the groundwork for the work of the American delegation at the London parley regard the meetings in Washington with the Japanese as an opportunity to talk over various unsettled questions relating to the two navies before the conference meets.

Before the Japanese delegation arrives here the middle of next month, Secretary Stimson expects to have a large number of matters ready for immediate discussion. It is generally expected by American naval circles that the Japanese will enter the London conference anticipating a 10-10-7 ratio between the American, British and Japanese navies, rather than the 8-8-3 ratio established for capital ships at the Washington arms conference.

CONFERENCES PLANNED

The question is expected to be discussed fully by President Hoover, Secretary Stimson and Senators Reed of Pennsylvania and Robinson of Arkansas, the Senatorial members of the delegation already chosen by President Hoover, and former Premier Kajiro Wakatsuki and Admiral Hatake, Japanese Minister of Marine, the two Japanese delegates.

Full support of President Hoover's policy of naval reduction in place of mere limitation is expected from the Japanese. A strong sentiment for reduction was expressed by the Japanese government in its reply to the British invitation to the parley.

The Japanese delegation to the conference is expected to be composed of some seventy persons, including a large staff of technical advisers.

FOR LOOKS OF THING

While the Japanese will sail for the conference at approximately the same time as the American delegation, some doubts were expressed by American officials tonight that both delegations would sail on the same trans-Atlantic liner. It was pointed out that it is not a customary practice for two delegations to a conference so large and important as the forthcoming naval parley to arrive together.

So far there has been no decision regarding the ship on which the American delegation, which is expected to include about thirty persons, will sail for London.

DAVES TO VISIT HOOVER

CHICAGO, Nov. 3. (AP)—Gen. Charles G. Daves, United States Ambassador to Great Britain, will leave Chicago tomorrow for a two days' visit with President Hoover and Secretary Stimson, at Washington. He will sail from New York for London Friday.

ATHLETIC DAUGHTER TAKES AFTER FATHER

(A. P. Photo)
Frances Brewer

COLUMBIA (Mo.) Nov. 3. (Exclusive)—For some reason or other, no one, apparently, has been fit to apply the old adage about "like father, like son," to a daughter. Yet today out here in this little city there is a daughter who may be called a "chip of the old block."

She is Miss Frances Brewer, daughter of C. L. Brewer, athletic director at University of Missouri. Miss Brewer has taken up a career of instruction in athletics.

NATION SECOND IN SHIPBUILDING

Official Report Shows Rise
From Seventh Rank

Great Britain Far Ahead of
America, However

Tonnage Largest Since Boom
of War-Time Years

NEW YORK, Nov. 3. (AP)—The November bulletin of the American Bureau of Shipping disclosed today that the United States had risen from seventh place on October 1 to second place on the 1st inst. in the world's merchant ship construction. The present tonnage, 368,146, the bulletin said, is the largest under construction in American shipyards since the close of the war shipbuilding boom and compares with 112,018 tons on October 1, when Great Britain was credited with a gross tonnage of 1,448,350 and Germany was second with 233,490.

The bulletin said that owing to the beneficial effects of the Jones White law, October saw two ships placed under construction for the Dollar Line, two for the Matson Line, four for the Export Line and one for the Porto Rico Line. In addition six large tankers were placed under construction in American shipyards.

Shipyards with which the contracts were placed included the Bethlehem Shipbuilding Corporation (Porto Rico plant), Newport News Shipbuilding and Dry Dock Company, New York Shipbuilding Company and the Federal Shipbuilding Company.

DON'T BE BALD

A MAN IS AS OLD AS HE FEELS!

A BALD-SPOT makes a man feel old, deprives him of that youthful look, and robs him of that personal appearance that is so essential to him in business and social success! Do not experiment with your scalp! Remember that only a Trichologist, with years of experience, is best qualified to analyze your particular, abnormal scalp disorder. Only through him can you receive quick and permanent results! The Tumas Scalp System, Ltd., has excelled any other method, because theirs is not a general, cure-all treatment, but one adapted to each particular condition of the scalp.

JOIN OUR ARMY OF SATISFIED CLIENTS! Call and see us today. One treatment will positively convince you that we are different, and that we can actually grow back your hair. We, and only we, can please you if all others have failed. In the past we have proved to our many friends that we prevent and eliminate baldness... let us prove it to you.

RESOURCES OVER 50 MILLION DOLLARS

Now 4th largest in the Nation

With resources in excess of 50 million dollars, Pacific States Savings is now not merely the foremost in the West, but fourth largest of the building and loan associations in the Nation.

The reasons for this growth are more important than the growth itself. You will find them in our long and flawless record of stability, and in the conservatism demonstrated by this statement of condition with its five outstanding factors of safety.

Statement of Condition as of October 31, 1929

ASSETS	
CASH ON HAND AND IN BANKS	\$ 7,429,711.13
UNITED STATES BONDS AND Miscellaneous Bonds approved by the Building and Loan Commission	1,453,921.80
INVESTMENT CERTIFICATES of other California Building and Loan Associations	122,500.00
LOANS	61,989,716.24
FURNITURE AND FIXTURES in various offices of the Company, office building, lot, etc., valued at over \$39,000 carried on books at	1.00
OTHER REAL ESTATE appraised at over \$15,000, carried on books at	1.00
ACCUMULATED EARNINGS	235,067.12
SUNDRY ACCOUNTS RECEIVABLE, prepaid expenses and deposits	107,474.58
TOTAL	\$51,388,392.87
LIABILITIES	
TO HOLDERS OF CERTIFICATES FOR SAVINGS (over 58,000 individuals and firms, corporations, title insurance and trust companies, banks, etc.)	\$45,831,837.92
TO BANKS: Bills Payable and Discounts	NONE
TO BORROWERS: On construction as building progress and on other loans awaiting final closing	1,434,104.64
TO BROW DEPOSITORS AND SUNDRY CREDITORS	135,954.04
TO UNDERWRITING FEES: Collected but not yet allocated and transferred to earnings	1,708,821.21
TO STOCKHOLDERS (safeguards holders of certificates for savings):	
(a) Paid-up Guarantee Capital Stock (nonwithdrawable)	\$483,000.00
(b) Prepaid Capital Stock	\$100,000.00
(c) Surplus, Reserves and Undivided Profits to Oct. 31	\$1,705,582.06
TOTAL	\$51,388,392.87

5 FACTORS OF SAFETY

- (1) STRONG CASH POSITION**
Pacific States Savings at all times maintains Cash on Hand of many times the current requirements of customers. It includes a voluntary cash reserve of 2 1/2 million dollars in interest bearing deposits in banks throughout California. Likewise there is voluntarily maintained a secondary reserve in bonds approved by the Building and Loan Commission.
- (2) LOANS**
Pacific States Savings' funds are loaned in accordance with the strict provisions of the law and the even more rigid restrictions of the company itself. Loans are secured by thoroughly protected first liens on improved real estate in 75 California cities. The appraisal value of this real estate is established by the company's ultra-conservative practice. Regular installment payments are required on all loans as a further safety factor.
- (3) LIQUID ASSETS**
In order to maintain assets at the maximum of liquidity we have written down Furniture and Fixtures and Real Estate out of surplus to one dollar each.
- (4) BANK CREDIT FREE**
Since bank loans would be an obligation coming before its obligation to savers, it is Pacific States Savings' policy not to avail itself of bank credit. It has no bank indebtedness.
- (5) CONSERVED EARNINGS**
That Pacific States Savings conserves its earnings is demonstrated by the fact that its surplus, reserves and undivided profits are over 3 1/2 times its guarantee capital stock.

TARIFF MAKERS DOWN TO CASES

Administration Will Permit Coalition to Go Ahead

Perfect Bill Expected as Result of Decision

It May Be Ready at Time of Regular Session

WASHINGTON, Nov. 3. (P)—A coalition confident that a tariff bill designed for agriculture's benefit will be passed at the special session and an administration group willing to let the opposition have its way will go into the Senate tomorrow determined to place a new customs-revision law on the statute books before the dawn of the new year.

Only four weeks remain of the special session and a huge task faces the tariff lawmakers to get the Hawley-Smoot measure to such a stage that it will not interfere seriously with the regular-session program. But party and group leaders, after weeks of futile effort to make real headway, now see a ray of hope for early final action through the decision of the Republican regulars to let the coalition write its own bill in the hope that some compromise may be reached in conference.

HARRISON CONFIDENT
Senator Harrison of Mississippi, one of the Democratic tariff spokesmen, predicted today that when the pending bill leaves the Senate it will be a great improvement over the measure passed by the House and that offered in the Senate by its Finance Committee.

"With those who framed the bill having run up the white flag of surrender," Harrison said, "it ought to be easier for those of us who are opposed to many features of the bill to present and press to completion our suggestions for revision."

Chairman Smoot of the Finance Committee said it appears now that the coalition has agreed to let the bill pass because of "pressure" aimed to obtain some tariff legislation. Senator Borah of Idaho, leader of the Republican independents, reiterated a belief that a bill can be passed by the Senate this session. "There is a 'manifest disposition' to get it out of the way," he said. The Democrats, Harrison contended, are trying to work out in conference "such plans as will curtail unnecessary debate, expedite the consideration of amendments and hasten the final vote on the bill."

PROGRESS MADE
Despite interruptions last week, the bill in Harrison's opinion, made "much progress" by virtue of the adoption of "some very helpful amendments." It has been clearly demonstrated, he said, that the bill as a whole is objectionable to the Senate, and while it will be impossible in the future consideration of many of its provisions for all those who have labored for its revision to agree as to rates or classifications, enough known to give assurance that when the bill passes the Senate it will be a better bill than passed the House and a far better bill than was recommended to the Senate by the Finance Committee.

The action of the Democrats throughout the consideration of the bill has been conservative, in keeping with campaign pledges and with an eye singly to justice to every class, section and industry as well as the general welfare of the people of the whole country.

HIDE TARIFF URGED
While the Senate chamber was silent, eleven national farm organizations made public a communication that has been sent to members of the Senate urging a tariff on hides.

"Millions of farmers, dairymen and stockmen are asking for duties on cattle hides and calf skins," it said. "Adequate duties on hides will be at once effective in raising and stabilizing the price in this country, as we now import annually some 300,000,000 pounds of cattle hides and about 35,000,000 pounds of calf skins. Your vote to accompany this will be hailed as evidence of a real desire to help agriculture."

The statement said that the duties on live cattle do not give protection on hides; that the great bulk of hides are sold on the open market, and that "free hides, devoid of excessive imports, so depress prices in this country that farmers and ranchers, as well as butchers and small packers often find their take-off hardly worth the trouble and expense incurred."

Mohammedan Leader to Wed in France Soon

PARIS, Nov. 3. (P)—The Havas News Agency reported that the marriage of Aga Kahn, spiritual head of the Mohammedans in India, East Africa and Central Asia, and Marcelle Caillon, daughter of the proprietor of a small hotel, will take place at Aix-les-Bains on December 4.

There have been rumors of the forthcoming wedding for a month, but the Prince, who is widely known in Europe for his first-class stable of racing horses, had denied the reports. His first wife died in Paris in 1926.

Usurper's Death Now Confirmed

DELHI (India) Nov. 3. (P)—Dispatches received here confirmed reports that Bacha Bakso, deposed usurper of the Afghan throne, and a number of his followers have been executed.

Nadir Khan, newly elected king, who had pardoned the prisoners, is described as having yielded to demands of Afghan tribesmen from the south and west, who insisted that the men pay the death penalty. Gaining custody of the men, the tribesmen led them to a spot inside the Shepur cantonment and shot them. The usurper's two brothers, Muhammad Sadio and Sayed Hussein, are named as among those shot.

MONEY TO BUY BRAINS URGED

New University of Chicago President Makes Plea

Education Must Compete With Business, He States

Plans to Strengthen Three Key-Point Colleges

CHICAGO, Nov. 3. (P)—More money, for faculty members to make education respectable and to enable universities to compete with business for the nation's best minds, was characterized today by President Robert Maynard Hutchins of the University of Chicago as the greatest need of American higher education.

The money is needed, he said, to "strengthen three key-point universities, to be pacemakers for all the others."

"In the last twenty-five years," he said, "the best minds of America have been drawn into business, hence, American education faces a new problem in competition—competition with big business for the best men."

"If you sprayed a hundred million dollars over all the worth-while colleges in the land," he said, "you might increase each professor's salary as much as \$134. You might as well throw the money in the lake. But spend it on the key institutions and you will develop pacemakers that will revitalize American education."

Dr. Hutchins would have the three key universities located one in the East, one in the Central West and one on the Pacific Coast. He asserted that the amounts which universities are spending on building projects and on their faculties are "shockingly disproportionate."

"In the last ten years," he went on, "the University of Chicago has received \$25,000,000 and only \$7,000,000 went to a faculty composed of 772 men and women."

NOTED EDUCATORS WILL ATTEND INAUGURATION

CHICAGO, Nov. 3. (Exclusive)—More than 100 college professors have accepted personal invitations to act as delegates to the inauguration of Robert M. Hutchins as president of the University of Chicago on the 19th inst. The event is expected to mark one of the greatest gatherings of learned men in the country's history.

Three hundred American colleges and foundations have been invited by the university board of trustees to send delegates. So far 190 have accepted, and will be represented either by their presidents or other officers.

SIX FROM CANADA

Invitations accepted by presidents include colleges in all parts of the country, and six from Canada. They range from President Van Kleeft of the University of Southern California to President Denny of the University of Alabama. President Murray of the University of Saskatchewan and President Marsh of Boston University.

Dr. William J. Hutchins, father of Robert M. Hutchins and president of Berea College, Berea, Ky., will help induce his son.

The principal foreign educator who has accepted is Vice-Chancellor James C. Levine of the universities bureau of the British Empire. Prof. Sir William Craigie will represent St. Andrew's College.

NOTED SPEAKERS

Speakers at the five principal events will include President Angell of Yale, President Chase of the University of North Carolina, President Kinley of the University of Illinois; President Scott of Northwestern, and Secretary Wilbur of the Department of Education.

Including the blanket invitation to the student body, the total of invitations to the various events amounts to more than 75,000.

U. C. DENTAL COLLEGE WORK WINS AWARD

SAN FRANCISCO, Nov. 3. (Exclusive)—President Campbell of the University of California today received word the university dental college has been awarded the gold medal of the Third Latin-American Dental Congress, held in Rio de Janeiro, Brazil, for the excellence of an educational exhibit of dental work sent down by Dean Guy E. Millberry.

OUR HOUSE-HUNTING
...ies at your finger tips!

Why, when Radios are discussed, is Sparton almost invariably used as a standard of excellence? The answer is that Sparton is distinctly different: definitely better.

Passing fancies can be manufactured. Permanent preferences cannot. The preference for Spartan is permanent, because it is based on fundamentals. *These include:*

- 1—Flat Band Selection, instead of Peak Tuning. Introduced by Sparton, perfected and refined by Sparton, and offered by Sparton only in the 1929-30 Sparton Equasone Models.
- 2—Band Pass Filter, which pre-selects the station that is wanted, filters out all interference, and delivers to the amplifying unit only the program that is desired.
- 3—Functional Separation . . . a Selector Unit, a Rectifier and Power Unit, and an Amplifier Unit, each separate and distinct, each performing perfectly in its own particular function, without interference from or with any other unit.
- 4—Equasonic Tone Quality . . . the same purity and fidelity, the same roundness and richness and beauty of tone on all wave lengths, at both ends of the scale.

But, important as these features are, they are not the secret of Sparton Supremacy. That secret lies in Sparton initiative...in Sparton independence. From the beginning, Sparton has concentrated on the creation of all-electric radios, only. It had nothing to unlearn when it brought its 25 years' experience in the electrical reproduction of tone to bear upon the perfection of an all-electric Radio. Urgency demanded of Sparton no compromise between the old and the new. Sparton has been free, it has had the courage, to go its own way ... and that way has lain supremacy in the fine Radio field.

Your Sparton will possibly cost you a few dollars more, but only a few dollars more, for every Sparton is priced complete, delivered, ready to operate. For this slight additional investment you buy service, performance, beauty of tone and cabinet which cannot be had for less. You buy the perfected application of the Sparton Equasone principle which cannot be had in any other set at any price. You buy the privilege of owning a Radio that is the acknowledged leader. You never have to explain, or apologize, or make excuses for the Sparton, or for your judgment in selecting it.

Because Sparton is distinctly different, definitely better, we invite you to see it, at one of the franchised Sparton dealers listed below. And because we are convinced that this new Sparton Equasonne is the greatest Radio the world has ever known at any price, we say to you again, in all earnestness...

"...don't you buy a radio
until you have heard a Sparton"

A CHUCKLE FOR EVERYBODY

THE BEASTS OF TARZAN

By Edgar Rice Burroughs

GASOLINE ALLEY

What to do With Your Millions

Tarzan and Jane Clayton watched the verdant shoreline receding in the ship's wake, and for once the ape-man left his native soil without one single pang of regret. No ship that sailed the seven seas could have borne him away from Africa quick enough. His eagerness to resume the search for his lost boy made the speed of the Kincaid seem that of a snail to the avid Tarzan.

Yet the vessel made progress even when she appeared to be standing still, and presently the low hills of Jungle Island became distinctly visible upon the western horizon ahead. Jane and Tarzan stood upon the bridge watching the approaching land. The men were forward, also watching the land grow upward out of the ocean. The beasts had sought the shade of the after where they were curled up in sleep.

BELIEVE ME THE FIRST THING I'D DO IF I GOT THE MONEY WOULD BE TO TELL A FEW BIRDS TO JUMP IN THE LAKE! THEN I'D GO UP TO TENDERFOOT LAKE FISHIN' AND FORGET TO COME BACK.

WHEN IT GOT CHILLY I'D GO AFTER SAIL FISH AND TARPON OFF THE FLORIDA KEYS. AND NOBODY WOULD TELL ME WHEN TO QUIT—NO MAN! I MEAN, OF COURSE THERE'S ANY—

ANOTHER THING, IF I HAD ANY TIRE TROUBLE TO PEEL IT OFF AND LEAVE IT RIGHT THERE AND BUY A NEW ONE! AND I'D HAVE ANOTHER CAR TO DRIVE WHILE THIS ONE WAS IN THE SHOP.

AW, WHAT'S THE USE! SUCH DREAMS NEVER COME TRUE FOR ANYBODY—EXCEPT WALT.

All was quiet and peaceful upon the ship, and upon the waters. Suddenly, without warning, the cabin roof shot up into the air, a cloud of dense smoke belched far above the Kincaid and there was a terrific explosion which shook the vessel from stem to stern. Instantly pandemonium broke loose upon the deck. The ape of Akut, terrified by the sound, ran snarling and growling in their panic.

Sheets leaped here and there screaming out his startled terror in hideous cries that sent the ice of fear straight to the hearts of the Kincaid's crew. Blusambl, too, was trembling. Only Tarzan of the Apes and his wife retained their composure. Scarce had the debris settled than the ape-man was—none the less, quivering their fears, talking to them, stroking their shaggy bodies and assuring them that immediate danger was over.

KETTLEMAN OIL GETS SURPRISE

Deepest Project in District Without Showings

Failure Regarded as Highly Important to Field

Situation at Other Holes in Section Reported

Failure to discover oil sand in the petroleum securities company's Kettleman No. 1 on Sec. 24, 25-17, of the north dome of Kettleman has been regarded as a surprise to operators. This project now is the deepest in the entire field. It is drilling below 8100 feet in sand and shale.

The fact that no showings have been found is considered important. It is only two miles west of the Kettleman Exploration Company's No. 1 discovery well, drilled to 7200 feet.

Petroleum Securities' Kettleman No. 1 on Sec. 24, 25-17, and Ladd No. 1 on Sec. 28, 26-18, both on the north dome, are drilling in oil sand, the sand below 6000 feet and the latter below 6700 feet. Since drilling its No. 81 on Sec. 11, 17, on the north dome, the Kettleman Oil Company has experienced difficulty in pulling through casing from bottom at 6073 feet. Approximately one-half of it has been recovered, and when the well is cleaned to bottom drilling will be resumed to deepen into oil sand. This undertaking was completed more than two months ago and was putting out 1000 barrels of oil per day until killed to water.

The Continental Oil Company's Kettleman No. 12-4 and Milham's Kettleman No. 1, both on the north dome, are the only two producers in the entire field. Milham's Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 2 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The General Petroleum Corporation continues to fish for three-inch pipe in Ochsner No. 2 on Sec. 24, 25-17, having reached 7200 feet. The fish is from 8. 6715 to 7200 feet. The Kettleman No. 2 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

No new showings of oil sand have been encountered in the Kettleman No. 1 on Sec. 24, 25-17, with bottom below 7100 feet. The project was killed four weeks ago when it tested wet at 7002 feet. It is not considered a lost well.

The Pacific Western Oil Company's Kettleman No. 27 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

The Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago. Kettleman No. 1 on Sec. 24, 25-17, is a dry hole, having reached a depth of 7000 feet, where a fishing job was made several months ago.

OIL MEN CURTAIL OUTPUT

Voluntary Action by Many Producers Bringing Down Production Will Prevent Gas Wastage

BY HOWARD KEGLEY

That the oil industry in California may succeed within the next two or three weeks in getting the daily production down to or near the daily output in 1928 is indicated by the fact that remarkable progress has been made in the curtailment movement during the last few days.

PROGRAM ELABORATED

The same condition reveals at Elwood, where the Barnard-Rio Grande combination is shutting in more than 30 per cent of its daily output. Yesterday the program was further elaborated by the announcement that operators in the Kern front field have voluntarily agreed to shut in 17 1/2 per cent of their pumps, thus shutting in 18,000 to 20,000 barrels of daily output of heavy crude.

REDUCTION VOLUNTARY

Voluntary reduction of output is what is really amounting to at least it is so considered by H. Paul Grimm and Neil H. Anderson, umpires selected for the two principal fields in the Los Angeles basin.

HUGE GAS QUEST PROGRAM AFOOT

Cities Service Subsidiary to Drill Thirty-five Wells

Texas Panhandle Selected as Scene of Operation

Will Turn Product Into Pipe for Chicago Field

AMARILLO (Tex.) Nov. 3. (Exclusive)—One of the largest campaigns for natural-gas development ever undertaken in this country will be started early next spring by the Cities Service and Fuel Company which will drill thirty-five wells in the proven area of the Panhandle of Texas.

CHAMPION PORCELAIN SHIPPING

Concern Sends 600 Tons of Dumortierite Product from Fallon Deposit

FALLON (Nev.) Nov. 3. (Exclusive)—The Champion Porcelain Company shipped 600 tons of dumortierite from its property near Fallon last week, the material being sent to Detroit for manufacture into spark plugs. The deposit is the only commercial one of its type ever developed in the West, and occurs in bunches and pockets of various sizes.

WIDER USES OF NATURAL GAS LOOMS

Adaptation to Field of Metallurgy Suggested in Mines Bureau Bulletin

The probability that the development of metallurgical uses for natural gas may stimulate the growth of chemical and metallurgical industries on the Pacific Coast is suggested by the United States Bureau of Mines.

NEW OIL PIPE LINE PENDING

Project to Hook Up Two Kern Fields and to Pass Another Reported on Docket

Plans for a new oil pipe line which will hook up two producing fields in Kern county and pass by another field in process of development, were made known yesterday when it was announced that today the City Council and Board of County Supervisors at Bakersfield will receive bids for franchises having to do with the proposed line.

MINE GROUP OFFICIAL IN TARIFF PLEA

Also Lists Other Items Held Necessary to Full Growth of Industry

ARTESIA FIELD BOOSTS OUTPUT

Several Projects Reported Recently Completed

Cranfill & Reynolds Well Held Best of Lot

Daily Production Registers an Increase

ARTESIA (N. M.) Nov. 3. (Exclusive)—Several good producers have recently been completed in southeastern and eastern Los Angeles county. Outstanding among these is the State No. 1 of Cranfill & Reynolds on Sec. 2, 31-33, near the town of Lea. The well made slightly under 1000 barrels daily, when completed, at 3750 feet. Since the test has been placed on the pump it has steadily increased until the production has reached 2035 barrels for the past five days.

SEVEN NEW PROJECTS IN KERN AREAS

Two Located in Wildcat Fields; Others Mostly in Poso Creek Section

BAKERSFIELD, Nov. 3. (Exclusive)—In the oil fields of Kern county seven wells were spudded in last week. Two other wells were begun in wildcat districts. The majority of new wells are in the vicinity of the Poso Creek field.

RENEWAL OF CUT ORDERS REQUESTED

Six Months' Extension is Asked by Operators in Winkler Texas Field

AUSTIN (Tex.) Nov. 3. (Exclusive)—In a petition to the Texas Railroad Commission, signed by a majority of the operators in the Winkler county field, the request is made that the present prorating restrictions which are due to expire the 9th inst. be continued for another six months.

Output of Texaco Project Given

POSO CREEK, Nov. 3. (Exclusive)—A production test in Veddor No. 3 on Sec. 4, 27-28, following its completion, shows that the Texas Company is getting about 800 barrels of oil daily from the well.

MANAGERS TARIFF INCREASE FAVORED

THE SACRAMENTO CHAMBER OF Commerce has adopted a resolution favoring an increased tariff on manganese as proposed by Senator Odell of Nevada in a bill now before Congress.

GRASS VALLEY MINE TEMPORARILY CLOSED

ANALYSIS DISCRIMINATION INTELLIGENCE EXPERIENCE

are essential to the selection of stocks for investment purposes.

—Stocks are not necessarily cheap because they have declined in price.

—They should be purchased only if they will stand the test of careful analysis and will produce a return commensurate with their cost.

—The analyses, facilities and service of our Investment and Brokerage Departments are available, without cost or obligation, to those interested in careful investment or conservative marginal purchases.

DEAN WITTER & CO.

VAN NUYS BUILDING - LOS ANGELES - VANDIKE 8111

CITIZENS SAVINGS BANK BUILDING, PASADENA

TEXAS OIL CONTRACTED AT BONUS

Louisiana Refinery Pays 10 Cents Above Market for 1,250,000-Barrel Lot

McGHEEY (Tex.) Nov. 3. (Exclusive)—Purchase of 1,250,000 barrels of crude oil at 10 cents a barrel above the posted field price, the production to come from the Hendrick field in Winkler county, has been contracted for by the Louisiana Oil Refining Corporation with the Southern Pipe Line Company, subsidiary of the Pan-American Petroleum and Transport Company.

DRILLING HALTS AT TAIT WILDCAT

TAFT, Nov. 3. (Exclusive)—Temporary suspension orders have stopped drilling operations in the Casa Mira Oil Company's wildcat well in the Gould Hills.

Drilling was suspended following a recent water shut-off test made at 1315 feet where the six and one-quarter inch casing was cemented. Bottom of the well is at 1705 feet, denoting that the water shut-off test was successful.

RARE CLAY DEPOSIT STRUCK

KINGMAN (Ariz.) Nov. 3. (Exclusive)—Mohave county, ever remarkable for minerals of unusual sort, has added to its collection recently a rare clay, said to be found elsewhere only in Norway, and containing salts of scientific value, said to be radioactive.

The clay deposit is on the Big Sandy River, south of Kingman, in the Aquarius Mountains, within an area a mile wide and several miles long. The discovery was made and announced by Robert E. S. Hefnerman, associate geologist of the United States Bureau of Mines, stationed at the University of Arizona.

Belridge Test Running Casing

BELRIDGE, Nov. 3. (Exclusive)—The Elmer Oil Company is running the casing in its wildcat, Belridge No. 1, on Section 2, 29-30, in this field. The casing is being set to the bottom at 3970 feet.

In the same field, on Section 32, 29-31, the K. C. Wallace well No. 1 is at 2308 feet, coring through the sandy brown shale formations. This well has had real gas showings during the past several days. The casing is cemented at 650 feet.

CAR LINES FACE
REVENUE CRISIS

Auto Competition Offers
Major Problem

Increase of Fare Fails to
Give Relief

State Railway Board
Completes Survey

With a total investment of approximately \$120,000,000, seventeen electric railway systems of California are facing a problem of major importance in meeting the demands of the privately owned automobile. The increase of street railway service on a flat-rate basis for the future years have in practically all cases failed to produce the expected results in revenues.

These are two of the features in the exhaustive report on the electric railway operation in California just published by J. G. Hunter, chief of the transportation division of the State Railroad Commission, in his survey by E. F. Singleton and William H. Gorman, assistant engineers.

The report has been forwarded to the Public Utilities Commission of the District of Columbia, which had requested information on California electric railways.

The survey revealed, the report states, that in California cities where a flat-rate fare is used, the distance traveled has been adopted, the railway systems have not experienced substantial increases in revenues.

SERVICE IMPORTANT

It is apparent, the statement says, that a system of fares will itself solve the electric railway problem. Service is also of great importance. Within the limits possible, service must be prompt or slow, or maintained. Any increase or decrease in the number of trips may be as disastrous as an improper adjustment of fares. Likewise, the type of equipment used must materially affect the flow of traffic.

There has not been developed a system for street car operation, the report says, that is adequate to meet the requirements of the continuance of the operation of street cars is important in the interest of the traveling public.

While the abandonment of street car service in some of the cities may be the result of competition, this is not the case in the major cities of California. With fares adjusted on a flat-rate basis, the public is inclined to meet public demands, it

appear that this committee has been organized by the owners as to produce a reasonable return to the owners.

The average acreage owned in use of automobiles, the ratio was 1.87 persons per automobile. The private automobile is a more important factor of life here than elsewhere, especially in California. New York is first in total number of cars, thirty million; second in use, with 6.50 persons per car. The average for the United States is one person per auto.

The average acreage owned in properties in California had an average of 6.0 cents in July, 1923, compared with 8.0 cents in other parts throughout the nation. California average fare a year ago increased during the same period, however, in July, 1923, was 3.3 percent down from 3.5 percent in July, 1922, and the nation was witness.

GENERAL INCREASE

A study of the fare in 200 cities in 1917 the 5-cent fare was reduced to 4 cents, and in 1923 fares of 5 cents were reduced to 4 cents, and 10 cents to 8 cents. In 1923 the 10-cent fare most common was reduced to 8 cents for practically 40 per cent of the cities. The same fare was used in 1917 and 1923. This study shows, being in use in 1917 and in twenty-five cities.

This report reveals that during the years 1917 and 1927 practically all railroads in California made increases for increase in fares. Only large properties in which the city of San Francisco was not sought were the exception. In the city of San Francisco, where a 5-cent fare was used, and in the San Diego market, where a some pain effect. A detailed study was made on all these prop-

the railroad Commission's
and where fares were increased
and where fares were de-
creased.

The investment in the seven
new car companies, according to
the report, is approximately \$180-
million. Gross passenger revenue

SPINSTER DEATH CLEWS CHECKED

Victim's Note Discloses She
Had Feared Provokers

Rear Door of Savelle Home
Forced, Police Report

Septuagenarian Had Roll of
Money Prior to Killing

Evidence leading to the belief that on at least one previous occasion Miss Frances L. Kudner, 70-year-old spinster, who was murdered late last Friday or early Saturday morning in her home at 1232 Barry avenue, Savelle, had been molested by a prowler was brought to light yesterday by police.

In a note to Mrs. Helen French Aldrich, 1232 Barry avenue, last Thursday, Miss Kudner is asserted by police to have written the following:

"Dearest Nellie: Sorry I was home, because there are bad people around. A man even tried to get in my door the other night, so I keep my door locked as I can't bear."

SHE HAD LARGE ROLL

Miss Kudner had in her possession last Thursday a roll of currency amounting approximately one and one-half inches in diameter and containing at least one bill of \$50 and \$10 as well as smaller bills, according to a statement asserted to have been made to police by Mrs. S. E. Holman, 1217 Barry avenue. Mrs. Holman is said to have informed police that she encountered Miss Kudner on a street corner in Savelle endeavoring to extract a small bill from the roll with which she was busied. Mrs. Holman said she offered to lend Miss Kudner a nickel, which she accepted. The police theory that the killing may have been done by a prowler was given weight by John Smith, 1217 Barry avenue, who is asserted to have been in the vicinity about 1:30 a. m. last Wednesday night. He was awakened by the barking of a dog and, getting up, was in time to see a man hurriedly running away from the house. Smith said he saw the man surrounding the yard and crawl away on his hands and knees. The investigation is expected to take a new turn today when the officers gain access to bank records and contents of a safe deposit they believe the woman had. He is asserted to have told police he recently came here from the Naval Hospital in San Diego.

SEEN ON BUS

Miss Kudner was seen on a Savelle bus in the downtown section about dusk Friday, Mrs. Anna R. Clarke, 524 Harrison avenue, a friend of the dead woman, is asserted to have informed police. Mrs. Clarke said Miss Kudner, knowing of her intended evening, helped her to alight from the bus. Neighbors told police that they last saw Miss Kudner about 1:30 p. m. Friday and that when she failed to appear in the yard the following day the finding of her body resulted.

CLEWS SOUGHT

Police redoubled their efforts toward unearthing possible clues, but were reluctant definitely to ascribe a motive for the killing pending further investigation and a chemical analysis of parts of the body by the county autopsy surgeon. Clad in disarrayed night clothes with a black scarf around the neck and the bed covers partially covering it, the body of the woman was found Saturday afternoon by Samuel Becker and Harry Scholberg, tenants of Miss Kudner, who occupied houses in the rear of her home, according to police. Examination of the body by County Autopsy Surgeon Wagner yesterday at the undertaker's home of Price-Daniel in Savelle, indicated that strangulation probably was the cause of death, according to Capt. Curtis in charge of Savelle division detectives. A blow, apparently with a sharp object, broke the woman's nose, he said. An open purse, containing some inexpensive jewelry and other effects, was found on a bed in an adjoining room.

OWNS MONTANA RANCH

The death of the woman, who had lived in Savelle for a number of years, was announced yesterday morning at the chapel of the Soldiers' Home, attended by a num-

AS SLAYING VICTIM LOOKED YEARS AGO

Policeman Charged With
Giving False Testimony in
Boat Shooting Trial

Pahrman Charged With
Giving False Testimony in
Boat Shooting Trial

Pahrman Charged With
Giving False Testimony in
Boat Shooting Trial

Fred A. Pahrman, Los Angeles police officer accused of giving false testimony in behalf of his partner, William J. Best, when the latter was tried and convicted of the slaying of Cristobal Silva Sierra, is scheduled to appear before Superior Judge Aggeler at 2 p. m. today to enter his plea.

It is charged that Pahrman testified that Best had not fired his revolver on the night in question and that Sierra was not at the place where Best is asserted to have shot him at the time the two officers attempted to arrest several youths for annoying two girls.

Dist. Atty. Fife asserts that he has evidence to prove that Best did fire his revolver on the night that Sierra was killed and that Sierra was one of the youths whom Best and Pahrman sought to arrest for disturbing the peace.

SEVEN INJURED IN AUTO TRAFFIC

(Continued from First Page)

Knocked down at Eleventh street and Broadway. Both were treated for severe lacerations and bruises.

COLLECTION MAY BE FATAL

An unidentified man was hurt perhaps fatally when an automobile driven by Marie Gregory, 25 of 231 West Twenty-seventh street, collided with another machine at Twenty-fourth street and Western avenue. He was taken to the Georgia-street Receiving Hospital where it was stated he suffered a skull fracture, concussion of the brain, and internal injuries. He was a passenger in Gregory's car, police said.

Gregory, with one eye badly injured, was taken to Ward 116 in the General Hospital where he is being held as a material witness. John J. Donovan, 21 of 1943 South Mariposa avenue, driver of the other machine, according to police, also is held as a material witness. He was not injured.

As the result of reports received three days ago when he fell from a street near his home, Ulysses Murray, 53 of 323 North Union avenue, died at the General Hospital yesterday, according to a report at the coroner's office. The body was removed to the County Morgue. An inquest will be conducted today.

Sleepy Sailors Jailed as Auto Theft Suspects

Two navy seamen discovered yesterday in Hollywood that a sailor's life ashore is full of trials and tribulations with no place to sleep.

F. G. Davis, 19 years of age, who told officers he was from the U.S.S. "Pasc", and Lawrence E. Boquet, 21 of the U.S.S. "McDonough", said they were enjoying the sights and sounds of a metropolitan city in the vicinity of Third and Main streets early Sunday morning; they were sleepy, they said, but still able to navigate themselves later, and still sleepy, they told police, they gladly accepted an offer to ride with a stranger. At dawn they were found by Patrolman F. H. Farwell of the Hollywood station peacefully sleeping on the rear seat of a large car parked near the corner of Selma and Vine streets. Behind them the automobile listed as "steal," hooked the young sailors on suspicion of grand theft of an auto, and left them to more undisturbed.

ANNULMENT WON BY WIFE NUMBER 2

Mrs. Martha Kate Bord McCook went before Superior Judge Archibald seeking an annulment of her marriage with Frank McCook, whom she married in Glendale on February 8, 1924. "Soon after our marriage my husband began writing letters from Augusta, Ga. opening with, 'My dear husband' and ending with, 'Your dear wife, Fannie,'" Mrs. McCook testified. "Later I learned he had a wife in Georgia whom he had not divorced before marrying me."

Mrs. McCook declared that her husband admitted marrying Fannie Lou Parkman at Augusta, Ga., on April 25, 1926. He thought, he said, she had obtained a divorce from him. Judge Archibald annulled the last marriage.

George Hamauer Was Known Here

George Hamauer, president of the Boston and Maine Railroad, who died unexpectedly of heart disease at New Haven Saturday, was recalled here yesterday as the executive responsible for the building of the auction room devoted to the California Fruit Growers' Exchange adjoining the B. and M. terminal. Boston. It was principally through his efforts that the structure was erected in 1926 to serve the needs of the West's perishable fruit products.

Hamauer's last visit to Los Angeles was made in May. At that time he spent several weeks here as the guest of Mr. and Mrs. Frank J. Mantrio of 618 Alta Drive, Beverly Hills. Mrs. Mantrio is his niece.

CHAMBER GROUP OFF TO MEXICO

(Continued from First Page)

One of popular interest. The tour is under the supervision of President Randall of the chamber, with Clarence H. Malson, manager of the foreign department; Charles P. Beyer, field secretary, and Walter J. Reynolds, district passenger agent of the Southern Pacific Railway.

RUBIDOUX RITES TO BE ON SUNDAY

Armistice Ceremonies
Shifted Because of Other
Events on Holiday

Because of the large number of events which draw the attention of Southern Californians on Armistice Day, the committee in charge of the regular Armistice Day services on Mt. Rubidoux in Riverside, announced yesterday that the program this year will be conducted at 3:30 p. m. next Sunday afternoon.

The speaker for that occasion will be Dr. Charles F. Akad, pastor of All-Souls Congregational Church in Los Angeles. His subject will be "MacDonald and Hoover, Sons of the Morning." The services will be conducted at Miller Peace Tower, which was erected on the mountain several years ago by popular subscription of Riverside citizens, in honor of Frank A. Miller of Mission Inn, who was the inspiration for the tower and Armistice Day services on the historic mountain.

Following Dr. Akad's address, which will concern itself with world peace and the influence for peace which is being exerted by President Hoover and Premier MacDonald, prominent Riverside citizens will present the permanent "Prison of Peace," which was written a number of years ago by the late Garret Holmes. George Dunham, Jr., of Riverside, will appear in the title role.

During the services the flags of all nations are to fly from vantage points on the mountain. The American Legion, Boy Scouts and other patriotic and community organizations will take part in the program.

THIRD PSYCHOLOGY CLASS ANNOUNCED

The study of psychology has attracted the attention of an unusually large number of persons in Los Angeles, according to applications and inquiries at the University of California Extension Division in Los Angeles. A class in general psychology opened by the Extension Division in the Hillstreet Building in September became so large that it was necessary to divide it into two classes. Both are now so crowded that it has become necessary to arrange for a third class which will open next Monday evening. It will be in charge of Dr. Lawrence Chaborn of the psychology department of the University of California at Los Angeles.

There'll Be Few Pedestrians on Campus

Two good reasons for not walking—Loring Graves, halting prospective passenger, and Peggy Gibson, driver of taxi. Both are co-eds of Delta Gamma Society at U.C.

FIVE Will Not Ride for the Price

of one when co-eds of the University of Southern California drive their taxis on the Trojan campus today. It's "Taxi Day" and any football star, tired after Saturday's game, may recline on soft cushions while a pretty co-ed drives him from his fraternity house to classes for 35 cents, and not a penny less.

These taxis lack meters, because time and distance mean nothing. It will cost as much to ride astride the radiator, or in the rumble seat, as it does beside the co-ed in the main seat. Profits obtained go into the Women's Self-government Association loan fund for students.

Actress and Husband Back

The European tour of Mr. and Mrs. Maurice J. McCleary ended yesterday when the motion-picture actress, the former May McAvoy, and her husband returned to their Hollywood home. The couple were married last June, and shortly afterward made a motor tour of North-west Canada, which was followed by their trip abroad.

EVANGELIST AND MOTHER UNITED

(Continued from First Page)

Chief Trial Deputy Daniel Beecher of the District Attorney's office yesterday said that the special session of the grand jury which will be called to take up the Angelus Temple affair and the alleged mismanagement of funds, will not meet this week and that he had told Mrs. McPherson that the grand jury will not meet this week and that she can make the Portland trip without worrying about being called before the grand jury.

ANNUAL HIGH SCHOOL DAY

Tuesday at the Broadway

To Prepare the Youth of Today
to Run the Business of Tomorrow

EACH year The BROADWAY sets aside a day to be known as ANNUAL HIGH SCHOOL DAY. On this day all the advertisements of the store are written entirely by high school advertising classes. The sketches accompanying them have also been drawn by high school students in the Commercial Art Classes and are the results of their efforts. In the store the students of the retail selling classes are also given an opportunity to work behind the counters and elsewhere for this day.

In preparation for this event The Broadway has purchased large amounts of merchandise. Every piece of merchandise on sale has been marked down to a new low price. Now is the time to shop for Christmas and the Holidays and effect a substantial savings on each purchase.

Help make HIGH SCHOOL DAY a success for yourself and the students by buying from the student salespeople who wear the yellow badge.

On the second time in the course
of a year Superior Judge Yankwich
has refused to recognize a Nevada
decree on the grounds that
the divorce was not bona
fide for the purpose of
divorce.

Caroline Broder's last ruling was made
in the case of Gertrude Broder
which was granted in Nevada
last year, after which the de-
fendant was taken under adjuv-
ment. Broder was married on De-
cember 10, 1928, in New York City.
She was married in her com-
mon law home in New York City.
Later, the wife was granted a
divorce in Nevada for the purpose
of bringing her suit for
divorce in California. She asked for
the support of herself and
child, Martin Broder.

WIFE TELLS STORY

Working as a wardrobe
for the Metropolitan Opera
house, Broder testified.
She was given a part in one of
the opera's plays, "Blood and
Guilt," and she had to go with him.
My husband told me that I should
not go with him, but I did not
listen to him. He said that I
should go with him, and I did.

As the witness stand at
the hearing, Broder testified
that she had been married to
John Broder for about a year.
She said that she had been
married to him for about a year.
She said that she had been
married to him for about a year.

The testimony before Judge Yank-
wich showed that Broder began an
affair with John Broder in Los
Angeles in 1928. At that time
she was an actress in the
Metropolitan Opera house.

Broder returned to Nevada
in 1928. She said that she
had been married to John Broder
for about a year. She said that
she had been married to him for
about a year.

NEVADA GRANTED

The decree in the records
book was not in Nevada. On Feb-
ruary 1, 1929, he filed a complaint
to have his wife declared a transi-
ent. She was not in Nevada at
that time. He said that he had
been married to her for about a
year.

Broder returned to Nevada
in 1928. She said that she
had been married to John Broder
for about a year. She said that
she had been married to him for
about a year.

The Nevada decree was fraudu-
lent, said Judge Yankwich in his
decision. Broder knew that his
wife was not in Nevada at the
time the decree was granted. He
said that he had been married to
her for about a year.

This was indicated by Defense
Attorney Ford shortly after the
proceedings started Friday. Ford
said he expected to put Broder
on the stand today or tomorrow,
depending on the time necessary to
conduct the examination of other
defense witnesses.

Miss Schade testified that Staf-
ford lived her to a cabin in Tur-
bull Canyon the afternoon of
March 23, last. She said she was
taken to the cabin under the im-
pression that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected

going to his parents' office to trans-
act some business.

POPULAR ACTRESS GOES UNDER KNIFE

Colleen Moore

Colleen Moore

Colleen Moore, motion-picture
star, was operated on for appen-
dicitis yesterday morning. The sur-
gery was performed at Hollywood
Hospital by Dr. Elias A. Lewis. He
said the operation was entirely sat-
isfactory.

The actress last week returned
hastily from New York where she
suffered a sudden illness while en-
gaged in contract negotiations. She
submitted to examination after
her return to determine the nec-
essity of an operation and it was
decided to resort to surgery at 9
a.m. yesterday.

The star's husband, John McCor-
mick, film producer, was at the
hospital during the operation, as
also were her mother, Mrs. C. E.
Morrison, and a brother.

Miss Moore was reported to
have rallied very well after the
operation.

GRAIN MAN MAY DEFEND SELF TODAY

Stafford Slated to Take
Stand to Refute Charge of
Attacking Girl

C. C. Stafford, El Monte grain
dealer on trial in Superior Judge
Wilson's court on a charge of at-
tacking Miss Rae Schade, his for-
mer secretary, may take the wit-
ness stand late today in his own
defense.

This was indicated by Defense
Attorney Ford shortly after the
proceedings started Friday. Ford
said he expected to put Stafford
on the stand today or tomorrow,
depending on the time necessary to
conduct the examination of other
defense witnesses.

Miss Schade testified that Staf-
ford lived her to a cabin in Tur-
bull Canyon the afternoon of
March 23, last. She said she was
taken to the cabin under the im-
pression that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

The defense already has indicated
that it will seek to prove that Miss
Schade willingly accompanied Staf-
ford to the cabin and is expected
to testify that she and Stafford were
going to his parents' office to trans-
act some business.

A LEGAL VACUUM

One of the most interesting points in the argument before the United States Supreme Court in the Plaza Terminal case was that made by Max Thelen, former attorney for the State Railroad Commission, who declared that if the court finds the Interstate Commerce Commission without power to order construction of the union station here it will be affirming the existence of a legal vacuum. His argument is that Congress could not possibly have intended to create any such hiatus and that, therefore, the railroad act of 1920, which is not entirely clear on the point, must be interpreted so as to bestow this necessary power.

The California Supreme Court, directly, and the United States Supreme Court, by inference, have already decided that the State Railroad Commission cannot compel the construction of a union station by interstate carriers, and the contention of the Interstate Commerce Commission that it also lacks the power would, if correct, therefore, leave the carriers unregulated in a very important particular.

The section under discussion provides that railroads "shall offer all reasonable, proper and equal facilities for the interchange of traffic over their lines" and the court is asked to define a union station as a "facility" so that the general regulatory body may have mandatory power to bring about its erection.

Thus after years of fighting there stands in the road of the Plaza Station only this question, which has already been decided favorably to the city by several lower courts, including the District of Columbia Supreme Court. If the Supreme Court follows these decisions, the railroads will have no apparent alternative to setting their steam shovels to work. The narrowing down of the issue to the question of whether a legal vacuum exists in itself a good deal of a victory for the city. Should the decision be adverse to the city's contention, there remains an appeal to Congress to clarify the law so that there may be no doubt of its intent.

On the merits of the Plaza Station issue the city has always been victorious. Every court decision, every commission decision, every disinterested expert opinion, on the question either of whether there should be a union station or where it should be located, has favored a union station in the vicinity of the Plaza. It is at this point that the railroads now converse. This is the point where the city eliminates all the grade crossings along Alameda street; this point is adjacent to the Civic Center so that a group of fine buildings will be the visitor's first impression of Los Angeles; this point has the best local transportation facilities and possibilities.

All the alternative plans have some defect or other, most of them several. One does not remove the grade crossings, another requires the construction of miles of unsightly and noisy elevated railroad, and so on.

The railroads have already overtaxed their present station facilities and need new ones—have needed them for years. They will be the principal beneficiaries if the high court shall now take action to compel them to get together on this plan.

It is possible there is a legal vacuum in the Transportation Act. It is certain there is a vacuum in the accommodations which the carriers ought to furnish to the public.

PORTER CAMPAIGN COSTS

Charges attributed by Mayor Porter to his political enemies have been filed with the City Prosecutor in which the contention is made that the Mayor and some of his supporters failed to make legal and proper accounting of the expenses of the Porter-for-Mayor primary and the election campaign costs, as is required by law.

This new development in an already contentious and confused state of municipal affairs calls for absolute open-mindedness from the citizenship at large and for the strictest sense of official obligation and responsibility upon the part of any and all officials who may be brought in contact with the case.

Neither personal enmities nor grudges nor the dictates of individual or organized politics should be permitted to enter into the matter. The reputation which Mayor Porter holds in the community is such as to justify confidence in his intentions and purposes.

It is charged against him that he failed to comply with the primary election law when rendering an account of the money received and disbursed in his primary campaign and that his report for the final election is inaccurate. Or, alternatively, he is charged with having deliberately and not the opinions, beliefs or mere surmises of those antagonistic to the Porter administration should determine the facts.

Likewise, from a sense of fair play it should be said that the allegations are made with sufficient shading of gray and certainty as to merit careful consideration and investigation. This is apparent despite the ready approval accorded the move against Mayor Porter by some of his erstwhile enthusiastic supporters.

The Times believes that Mayor Porter himself will be unwilling to permit the charges to go unanswered.

"MIKE FRIGHT"

To be called upon suddenly and without previous preparation to address a crowd of a few hundred or a few thousand people in a public hall is an experience which often has given a brave man or woman a pretty bad case of stage fright. But the unprepared speaker who faces that innocent-looking little disc known as the microphone and realizes that he is about to send his voice into an unknown multitude of listening ears in many corners of the country, near and far, is likely to be even more nervous and distraught.

When George M. Cohan, the usually nonchalant actor and playwright, who has been on the stage practically all his life, essayed his first radio part the other night New York was wonderfully fussed in a heart-to-heart digression that he was suffering from about as severe an attack of stage fright as he ever had had in his life. A little later in his speech he remarked: "I want to thank the station over which I am broadcasting for giving me this opportunity to live down the terrors of the microphone fright. I feel better now than

LEE SIDE O' LA

HE STRODE in majestically, but did not forget to remove his hat and nod with courteous dignity.

"I know you're a busy man," he said, "so I will not waste time in false modesty. You see in me a memory specialist, perhaps the greatest in the world. I have a system by which you can train yourself never to forget anything. You can even remember the names of Chinese generals, your wife's mother's birthday, your wife's letters, how to bound the State of Texas."

"We already know that," we interrupted, proudly. "Texas is bounded on the south by Mexico and on the other sides by the United States."

"Pray be not frivolous," he pleaded. "I can train you in one lesson so that you can remember all the words of 'The Star Spangled Banner.' I can train you so that never again will you leave a package or a book on the street car. Or so that never again, when your wife asks you if you remembered that errand for her downtown, will you have to imperil your immortal soul with that 'whooper' about not having really forgotten, but having been so busy you couldn't possibly get to it."

Overtrained

We sprang up joyfully. "Sir," we said, "you seem to be the man we've been looking for. But what proofs can you show that you possess these miraculous powers?"

"Let me show you letters," he said, "from people of highest standing. Here in my pocket I carry a packet of letters almost as dear to me as life, as they are testimonials from people whose names are known everywhere."

He thrust a hand into a side coat pocket. Then a blank look came over his face and he removed the hand. Empty. Then he searched his right-hand coat pocket, then his left-hand coat pocket, then his trousers pockets. The packet, almost as dear as life, was not in any of them.

"Good heavens!" he exclaimed, "I must have forgotten them on the desk of the last man I talked with. Well, my boy, I was going to ask you a question, but I can't find the question now. I must find those letters!"

He rushed out frantically, slapping his pockets again as he vanished. He never came back to ask for his writings.

I did when I started, and can hardly wait to get back to another microphone again.

One would think that, not having to face an audience which could stare back at him and note his physical tremors, a radio speaker might feel more self-possessed than one with a large assembly of auditors in plain sight. But others besides Mr. Cohan have confessed to what is sometimes termed "mike fright."

It would seem that a radio speaker, like any other, ought to know what he is going to say. If he is given time, his best plan is to have his address type-written beforehand and simply read it to his audience. President Hoover and other high public officials nearly always do this, and the result is a smoothly rendered speech, with little or no hint of "mike fright" manifest to the hearer.

PHLEBOTOMY

A new technique has been discovered in glandular revitalization. It is nothing more than our old method of phlebotomy. The old method was somewhat confusing; but this new technique clears matters up and is about the easiest thing to understand that has come out of Chicago for years.

The old glandular operation was always hard for a mere layman to understand. Noting that the lower extremities are the seat of the lower extremities, the old method was to speak of operations with any pleasure to himself or others. He could not handle the words.

But relief has come at last. No longer is diagnosis done in the dark and the prescriptions in Latin. You have phlebotomy performed upon your person, and you are ready to skip and play as a kid!

Transplanting glands and other organs from progenitors, such as monkeys, is now declass. The whole thing is performed within the patient's own periphery. His femoral and pampiniform veins are conjoined to the lower abdomen and revitalization is accomplished. New life and strength flow into the limping years as well as veins. It is so plain and simple that a Philadelphia lawyer can understand it.

The person who has been fired at 40 can recover his work and wages by merely connecting up his femoral with his own pampiniform. The subject cannot perform the operation himself; he must have a surgeon enter his vitals and rearrange matters. But it is something to have inside information.

Just why nature did not employ the femoral to rejuvenate the decrepit pampiniform is not perfectly clear. Nature is not usually so stupid. But it is something to have these organisms lying around handy in case of need. It is a pleasing surprise to know that each person has the fountain of youth in his own hypostasis.

CONSERVATIVE BANKING

Eastern financiers are urging that changes in banking methods should be carefully studied. Nothing revolutionary should be attempted. If they are seeking to sound a note of warning against mergers and branch banking they are years too late.

A CALIFORNIA MASTER

Rembrandt died insolvent. Raphael died of a broken heart. Homer counted that night fortunate when he was able to sleep on straw. Phidias died in a dungeon. Euripides was torn limb from limb by vicious hounds. Socrates, by a special dispensation, was permitted to escape the rack by drinking the cup of hemlock.

Confucius died a pauper. Lao-tse was greater perhaps than Confucius or Buddha; his bones are the sport of the winds and sands of the Chih Desert.

To mediocrity, genius is the unpardonable sin.

Such is the record of history, of vanished civilizations. A great talent was a great crime. Only those who were willing to give to the populace—the fish—the bait that the fish liked were able to achieve during their lifetime a competence.

We are prone to ask of truth that it be optimistic, consoling; but truth is much more likely to be tragic.

The genius of Lucullus in gilded palaces are remembered; the fasts of Tasso and Dante behind prison bars are forgotten.

How we in our mad mediocrity condemn the mediocrity of generations and civilizations that are dead! We tell each other, like the chattering Banderlog, that Los Angeles is destined to become a great art center; yet we patronize the bootlegger and neglect the artist.

The artist, perhaps, but art lives on the word of the artist; and art, and spend our money for gin and gasoline.

Los Angeles is reputed to have the greatest per capita wealth of any city in the population on earth; yet Los Angeles is more impoverished in statuary and painting than any other city of the population. I have visited; and I have visited most of the large cities of the world.

San Francisco is our only competitor for the cellar position in the international art league.

PLAYERS CAST IN COURT ROLES

"Film Week" Begins Today in Federal Tribunal

Numerous Cinema Notables Scheduled to Appear

Cases Result of Questioned Income Tax Returns

"Film week" is scheduled to be on, beginning today, in the United States District Court here. Numerous motion-picture actors, actresses and directors are expected to appear for various reasons.

Turn Mix, saddle hero of the film, and his brother-in-law, John D. Hill, are expected to appear before United States District Judge James for arraignment on charges of aiding in the making of false and fraudulent income-tax returns. J. Marjorie Berger, tax adviser, who has been on trial for the last two weeks, also is to appear in two cases in Judge James's court. Edward H. Hayden, income-tax adviser, is to appear before Judge James to have his case set for trial.

Eleanor Boardman Vidor, wife of King W. Vidor and a prominent witness in the case against Miss Berger, is scheduled to appear before Judge James to have her case set for trial. Her husband, King Vidor, is to appear before Judge Henning for the same purpose. Raymond Griffith is to appear before Judge Henning and Raymond McKee before Judge James.

Testimony has been completed in the trial of Miss Berger and it is expected the case will be placed in the hands of the jury in Judge Henning's court late tomorrow or Wednesday morning. She is accused of aiding and assisting in the making of false and fraudulent income-tax returns for Dorothy Mackall, film actress.

NEW ENGLANDERS TO MEET
Chief Swiftfoot and Princess Wildhorse, full-blooded Indians, will be introduced tomorrow evening at the monthly meeting of the New England States Society in Veterans' Hall, 246 South Hill street. They will offer musical numbers and native dances. Mrs. Davis will give an Indian reading. All New Englanders are invited.

RED MAN OF DESERT AIDS LECTURE HERE

Wo Pin of Pueblos

INDUSTRY OF INDIANS NARRATED

Tribal Village of 104 Ekes
Out Living on 300 Acres of Land in New Mexico

How fourteen tribes of Pueblo Indians eke out their living by cultivating small plots of ground along the Rio Grande north of Albuquerque, N. M., was told yesterday by W. Allen Cushman, opening lecturer on the winter Sunday program at the Southwest Museum. "I dropped into the village of the San Ildefonso tribe last January," Cushman related, "and was so taken by the kindness of the people that I remained with them for six months. 'Nine miles of irrigation ditches have been built by the people of this village, but these nine miles bring enough water to irrigate only one agricultural plot at a time.'"

Wo Pin, member of the tribe who is in Los Angeles with Cushman and aids him in his lectures, said that his tribe raises corn, wheat, chili, alfalfa and vegetables on 300 acres. There are 104 people in his village, he pointed out, who subsist mainly on what they are able to raise for themselves. George Edward Lewis, a veteran of Alaska and the Arctic regions, will lecture next Sunday in the museum auditorium on "Ivory Gods of the Arctic."

BADHAM ON SCHEDULE FOR TRIAL

Assemblyman Will Face Jury Today on Election Expense Accusation

Charged with violating the primary election law, State Assemblyman Willard E. Badham is to face jury trial this morning in Municipal Judge Sheldon's court. He is accused of failing to file his expense account within fifteen days following the primary election of last year, as required by law. Badham was scheduled to be tried in January of this year on the charge, but escaped trial at that time because he was serving as a member of the Legislature and was immune to arrest and court proceedings. Judge Sheldon issued a bench warrant when he failed to appear for trial during the legislative recess in February, but Sacramento officers refused to serve it. The warrant later was returned here for service and when informed that it was outstanding, the Assemblyman, through his attorney, Frank M. Smith, surrendered himself for trial.

Dipple Improves After Being Hit by Electric Car

Andrew Dipple, former director of the Metropolitan Opera in New York, who was injured last Saturday when he was struck by a Pacific Electric car at the intersection of Ninth and Hill streets, was reported yesterday to be progressing favorably in the Community Hospital in Culver City, where he was taken following emergency treatment at the Georgia-street Receiving Hospital.

Mr. Dipple, according to hospital attendants, suffered a fractured hip. Late in the day his condition was said to be good. He is under the care of Dr. H. E. Anderson, physician for Metro-Goldwyn-Mayer, by whom he is employed.

At one time a leading singer and subsequently director of the Metropolitan Opera, Mr. Dipple has lived in Hollywood for several months, where he has been encouraged in technical work for the films. He is 42 years of age.

RANCHER FLIES HERE TO BE OPERATED ON

An airplane yesterday was employed by Robert Hendrick of Big Bear to speed him to Los Angeles for an operation for appendicitis. Seized with an acute attack he phoned the Aerm Corporation of California for a plane. Pilot Burrell Smith made the return trip in forty-nine minutes. The operation was performed at Southwest Hospital, where Hendrick last night was reported recovering. He operates a big ranch at Big Bear. He is the son of Mrs. George Hastings of 8818 South Flower street.

More and Stronger Than Any of the Locks on the Panama Canal are those of the famous Keokuk dam across the Mississippi River at Keokuk, Ia., shown as they appear from an airplane. The power plant on the right is the largest of a fifteen-story building from its base on the river bed to its roof. The dam is among the largest in the world. (A. P. photo.)

A Serum Which Will Cure Measles, dread children's disease, has been discovered by Prof. Giuseppe Caronia, eminent Italian scientist, it is believed by physicians who have been collaborating with him in his experiments conducted in laboratory at Rome. (A. P. photo.)

Youngest British Peer, the Duke of Norfolk, is reported engaged to Infanta Beatrice, oldest daughter of King Alfonso of Spain. (Herbert photo.)

His Full Name is Canine Occidentalis, but they call him Lupo at the Bronx Zoo in New York City. He is a big gray timber wolf captured in the Wyoming Rockies as a pup, and he has defeated all efforts of zoo keepers to tame him so far. (P. & A. photo.)

Even Baby's Carriage must now have an enclosed body. The one above, exhibited at London show, boasts body as carefully made as that of an automobile. (P. & A. photo.)

With Balloons Weighing Four Tons each are used to tow the R-101, Great Britain's mammoth airship, from drifting while she is moored to the pier. The roller pictured here is suspended from the tail end of the giant wonder ship. (P. & A. photo.)

Most Beautiful Woman in India is the Maharani of Takari, wife of one of the powerful Maharajahs. This is one of few photos ever taken of her. (P. & A. photo.)

Outstanding Hero of Lake Steamer Disaster, Capt. Alfred Christofferson of Kenosha (Wis.) coast guard, directed rescue work as ill-fated Wisconsin went down in fifty-mile gale on Lake Michigan. Sixty-four of seventy-three persons aboard were rescued. (P. & A. photo.)

Experiments to Determine Whether Lightning Will Strike Plane in Air are being conducted by A. O. Austin, internationally known authority on electricity, on a "lightning farm" at Barberton, O. Reported destruction of plane by lightning prompted experiments. Photo shows giant transformers capable of throwing bolt of artificial lightning twenty-seven feet. (P. & A. photo.)

Training Grind of the Professional Athlete's is Not More Strenuous than that of the modern chorus girl whose value as a chorine depends largely upon her agility and ability to stand up under long and arduous routines; that is, after she has qualified as to face and form. In these three action photos members of Fanchon and Marco prologue are shown in training. (Don Gillum photo.)

HIGH LIGHTS OF HISTORY 1489 The Story of the World War 239—American Aircraft Production. by J. CARROLL MANSFIELD

WHEN WE ENTERED THE WORLD WAR, THE ALLIES, KNOWING OUR ABILITY FOR DOING THINGS IN A BIG WAY, LOOKED CONFIDENTLY TO THE UNITED STATES TO SUPPLY THEM THE EUROPEAN SIZES WITH CHAINS OF AMERICAN-MADE AIRPLANES THAT COULD BOMB THE WHOLE GERMAN ARMY OUT OF ITS TRENCHES. — THE AMERICAN PUBLIC WAS SURE WE COULD DO WHAT WAS EXPECTED OF US, AND CONGRESS APPROPRIATED THE SUM OF \$140,000,000 FOR THE PURPOSE. — WHEN IN A FEW YEARS TIME ONLY A FEW PLANES HAD BEEN PRODUCED, THE PUBLIC AND THE ALLIES WERE KEENLY DISAPPOINTED. BUT THEY HAD NOT RECALLED ON THE COLOSSAL TASK THAT CONFRONTED THE AIRPLANE BUILDERS.

IT TOOK TIME TO DEVELOP THE BEST TYPES OF COMBAT PLANES AND BOMBERS. IN JULY, 1917, THE POWERFUL "LIBERTY" MOTOR WAS ADOPTED, BUT LATER CHANGES IN THE MODEL CAUSED MANY DELAYS BEFORE IT WAS READY FOR ACTUAL SERVICE. —

LARGE FACTORIES HAD TO BE BUILT, SPECIAL MACHINERY ERECTED, MATERIALS ASSEMBLED AND THOUSANDS OF WORKMEN TRAINED. CONSIDERING THE MANY DIFFICULTIES, THE ESTABLISHMENT OF THE INDUSTRY IN LESS THAN A YEAR AND A HALF WAS QUITE AN ACHIEVEMENT.

BY THE FALL OF 1918 THE VAST MACHINERY OF PRODUCTION WAS FUNCTIONING SMOOTHLY AND SWIFTLY. BY OCTOBER 11 NEARLY 10,000 PLANES AND ABOUT 25,000 ENGINES HAD BEEN TURNED OUT. IN THE MEANTIME MORE THAN 3,000 PLANES HAD BEEN OBTAINED IN EUROPE FOR OUR AIR SERVICE. — CONTINUED.

YOUTHS JAILED AS BANDIT PAIR

Arrest Follows Quickly After Two Robberies

Suspects Flee Unscathed as Victim Fires

Many Minor Robberies Keep Police Force Busy

After apparently having committed two robberies in swift succession and escaping the gunfire of one of their asserted victims, two men yesterday were arrested by Policemen Chapman and Bradley who surprised the pair in the rooms of one shortly after the time of the hold-ups. The prisoners identified themselves as Robert Earl, 25 years of age, and Tala Barclay, 19. They were taken in custody at 5438 Drexel street. Barclay gave his address as 2833 West Avenue 34.

Their first victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their second victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their third victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their fourth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their fifth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their sixth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their seventh victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their eighth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their ninth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their tenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their eleventh victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twelfth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their fourteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their fifteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their sixteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their seventeenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their eighteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their nineteenth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twentieth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-first victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-second victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-third victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-fourth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-fifth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-sixth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-seventh victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-eighth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their twenty-ninth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirtieth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-first victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-second victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-third victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-fourth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-fifth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-sixth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-seventh victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-eighth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their thirty-ninth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their fortieth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their forty-first victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their forty-second victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their forty-third victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their forty-fourth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

Their forty-fifth victim, according to police, was M. E. Roldin, call man for the Southern Pacific Railway. Roldin reported being held up at San Fernando Road and Curline street and robbed of his \$7 pay.

CLAIM REPORT ADVERSE

The claim of Roby Lee Williams for \$500 damages as the result of injuries suffered in a toboggan tumble at the county park at Big Pine last December will be decided by the Board of Supervisors today if the legal advice offered by County Counsel Mattoon is followed.

check, a leather coat and a flashlight. About ten minutes later, police received a call to Avenue 34 and Pasadena avenue, where Roy Benedict, proprietor of a service station, stated he had fired three shots at two young men after they had obtained gasoline, oil and repairs and driven away without payment.

Earl and Barclay were traced to Earl's address, in front of which the officers reported finding a car containing Benedict's leather coat and the flashlight. A bullet hole also was discovered in the rear seat of the car.

A number of other minor robberies also helped to keep police busy during the early hours yesterday.

Three negroes, two men and a woman, held up at the S. E. Garage at 134 North San Pedro street, robbed Howard Fujimura, night man, of \$20, and then took a \$10 fountain pen from Joe Farfara of 117 North San Pedro street.

Two negroes, two men and a woman, held up at the S. E. Garage at 134 North San Pedro street, robbed Howard Fujimura, night man, of \$20, and then took a \$10 fountain pen from Joe Farfara of 117 North San Pedro street.

FIFTEEN TO BE HEARD IN KELLEY QUIZ

New Inquiry on Evidence Bearing on Mellus Case to Begin Today

Fifteen persons will be questioned this morning by Dist. Atty. Pitts and Assistant Chief Deputy Jordan in a new investigation of evidence said to bear on the innocence of Mrs. Myrtle Mellus.

Plans for the hearing were announced yesterday by Attorney Hahn, who defended Kelley at his trial in August, last year, and are the result of a conference between Pitts and Clark B. Lewis, brother of the slain woman.

The brother and mother of the convicted man assert that the new evidence they desire to place before the District Attorney contains possibility of an exoneration for Kelley, and the indictment of another for the murder of fourteen months ago. Some of the fifteen to be heard tomorrow were barred from the witness stand during the trial, according to Hahn, by rulings of Superior Judge Bowen, who presided.

Kelley was sentenced to be hanged, but two weeks ago the State Supreme Court reduced his crime from murder to manslaughter and he was returned here for a resentence after spending more than a year in "death row" at San Quentin.

A trial of bandits held up Al Silverman in his meat-furnishing store at 6223 Hollywood Boulevard and robbed him of \$150 and \$100 worth of merchandise, Silverman reported to police.

While waiting for his wife at Eleventh and Fifty-second streets, James Holman, 1333 East Fifty-fourth street, was robbed of \$125, according to his report to police.

Two bandits were reported as wielding guns in the robbery of George Cooperman in his grocery store at 740 North Alvarado street, and the robbery of P. P. O'Brien in his grocery store at 771 North Boyle street, Cooperman told police.

Earl Heller, owner of a drug store at 4115 Central avenue, was forced to turn over \$20 to two armed negro bandits. The latter, it is believed by Captain of Detectives Miller, are the two responsible for the fatal shooting of Charles Cox, reported yesterday morning.

Pediatrician bandit obtained \$20 from Henry Carlson in his oil service station at 631 East Ninth street, Carlson told police.

A youth stopping from a parked automobile at Normandie and Eleventh and Eighty-third street held up Mrs. Margaret Woods of 1613 West Eighty-third street and robbed her of \$4, according to another report.

Captain of Detectives Cahill yesterday expressed a belief that Pete Hanson, arrested Saturday night at 1823 Santa street, is the bandit who held up a Hollister Bank branch at the South Hoover street March 30, 1927, and another branch at Twenty-fifth street and Central avenue, August 17, 1928, to the first robbery \$5000 was obtained and in the second \$12,000.

Meals for jurors may cost the county more money hereafter as the result of the action of the management of the Rostin Hotel in notifying Presiding Judge Craig that since November 1 the price of meals to jurors is \$1.50 instead of \$1.

Although Judge Craig states that it is difficult to get other hotels to provide satisfactory meals and accommodations, he suggests that the Board of Supervisors investigate the situation with a view to feeding and sleeping jurors elsewhere.

Cooper declared that several attempts had been made to break into the station Saturday night, he waited, armed with a revolver. Poonok, he said, appeared, and when the station was broken into, he was captured but broke away as Cooper was telephoning for police. He is held on suspicion of burglary.

Found hiding in a shed at the rear of 1819 Georgia street by Officers Wilson and Oasim, Edward J. Poonok, 27 years of age, was identified early yesterday as a suspected burglar who escaped from Harold Cooper in his service station at 1818 Georgia street.

ACTRESS WILL GIVE MINIATURE DRAMA

Marking her first appearance in Southern California, after numerous appearances in Northern California and in the East, Miss Virginia Willes will offer J. M. Barrie's "Quality Street" in miniature at the Knickerbocker Hotel at 8 p.m. tomorrow.

Miss Willes, from a large picture frame, speaks the lines of all the characters who appear in the three acts of Miss Maude Adams' famous starring vehicle. None of the dramatic episodes of the whimsical romance is missed in the miniature form in which the play is presented.

The entire reading is done with hark accompaniment by Mildred Hawks.

Similar presentations have been made by Miss Willes in Stockton, Oakland, Boston, New York, Paris and elsewhere, largely under the auspices of women's clubs and colleges.

"Oh, I just that a neighbor of mine who has been pastering me too much," said John Victor Haddock, 25 years of age, to Officer Baldwin in a hearing Thursday in his automobile at Whittier Boulevard and Boyle avenue, according to reports.

The cryptic answer was in response to a question asked by the officer in regard to a shotgun which Haddock is said to have had in the car under his feet.

Haddock was taken to Central Police Station by the officer, who later learned, he said, that Deputy Sheriff Frey was looking for Haddock for a serious charge against Robert Bery, rancher, living in the outskirts of Baldwin Park. Haddock admitted the rancher he shot as Joe Wagner, Edwards said.

According to the officer's report, Haddock had been shot by mistake and was in the Corbin Hospital in a serious condition. Haddock was turned over to the Sheriff's office for prosecution.

Charges of improper conduct against Leta Saxon, teacher in the city schools, which have been heard by the City Board of Education, will be reviewed a fourth time by the County Board of Education in a hearing Thursday at the office of Herbert S. Upjohn, County Superintendent.

Miss Saxon, it was asserted, made serious charges against Robert Bery, school principal, which were unsubstantiated. She also is said to have used personal influence to have her position and in asserted to be unfit to teach.

The State Supreme Court held the matter was not one to be decided in the courts so the City School Board asked the State School Board to hear the matter. The State board, in turn, referred the matter to the County School Board, agreeing to abide by its decision.

Franklin Pannofen offers a final work of MARJORIE RAMBAU in "What a Woman Wants" commencing Tuesday by public demand MARJORIE RAMBAU in "Merely Mary Ann" Monday Wednesday evening 8:15-10:15. Every night 10:15 to 11:15. Special Admission Day Matinee 2:15-4:15.

THE \$40,000 estate of Emory Elliott, Pasadena business man who killed himself because of his marital troubles, has been divided among three women who mourned his death, it appears from court records.

When Elliott died, his mother, Mrs. Emma B. Elliott, came from Texas to claim the property. Then Grace Elliott, his first wife, produced a will making her the heir, but his second wife, Myrtle, contested this. The State board, in turn, referred the matter to the County School Board, agreeing to abide by its decision.

Superior Judge Crail has approved a settlement by which the decedent's mother gets 25 per cent of his estate, and the residue is divided between the other women.

CAR LINES FACE REVENUE CRISIS

(Continued from First Page)

pared with \$30,073,641 in 1927, an increase of 6.4 per cent, while travel has declined from 71,114,817 in 1927 to 70,555,232 in 1928, a decrease of 1.3 per cent.

AUTO COMPETITION
In reviewing the records of these seventeen companies during recent years the conclusion seems clear that private automobile competition is the dominating influence on revenues at this time. The operators who have attempted to meet this competition by increasing city-wide fares without adjustment for distance, have seen substantial portions of their patrons turn to walking or the use of the automobile, and in many cases have not obtained the anticipated increased revenue. In those cities where fares were unadjusted for distance and travel have been but slightly affected. Those who have met the growing use of the automobile through constant rates based on competition and distance traveled have not experienced any substantial loss in revenue, but the most cases there has been an increase in the volume of traffic in those cities where some fares or 8-cent fares have been adopted, the report states.

"From this information it would appear that in the larger cities, where conditions are right, a plan of fare based on the same system is an appropriate way of meeting the need of increased revenue. Cost of transportation, without doubt, is, to a large extent, based on the distance traveled," the engineers declare.

A further advantage of the same system, they continue, "is that it provides a means of eliminating odd multiple fares that none fare being, in most cases, 5 or 10 cents, with suitable ticket, token or pass fares. Within zones the single 5-cent fare is generally adopted with the 10-cent fare between the two zones."

"Some of the results obtained in the smaller cities, by reducing the city-wide fare to 5 cents without a zone system, seem to indicate that the financial status of these companies has not been impaired and some business has been recovered."

LOS ANGELES LINES
Included in the engineers' report are the results of a survey made of the operation of several properties under the 5-cent and the zone-fare systems. Of the Pacific Electric Railway, where a 5-cent and 10-cent fare plan was made effective April 27, 1928. Both travel and revenues on this system are higher than ever before in the history of the company, while the Los Angeles Railway, which increased its fare last year, under authority of the Federal District Court, from 5 cents to 7 cents, with four tokens for 25 cents, has shown a decrease of 12 per cent in travel. It should be pointed out that the company fare on the Pacific Electric lines was reduced from 7.5 cents to 7.2 cents as a result of the zone plan.

The increase in fare on October 21, 1928, on the Los Angeles Railway was 26 per cent, while the increase in revenue was but 12 per cent, as a result of a falling off in travel of approximately 30,000,000 passengers a year. In Sacramento, where a similar increase in fare took place, over one-fourth of the street-car travel has disappeared and the company's gross revenues are not as great as the present time as before the increase. Hahn took place September 1, 1928, the report asserts.

The balance of the report is devoted to a survey of conditions in various California cities, including San Jose, Stockton, Pasadena, Oakland, Santa Barbara, Long Beach, Mendocino, San Bernardino and San Francisco. In every instance, increase in fares resulted in a marked falling off in travel and in revenue, and establishment of the fare cent fare showed increase in both income and travel, the report shows.

In Santa Barbara, the railway company operating there after experimenting with various forms of fare ranging from 5 cents to 10 cents, with tokens, weekly passes and identification cards, elected to discontinue the service, as it appeared that, regardless of the fare, the revenues were not equal to meet the operating expenses, the report declared.
